3D mesh model City of Turku

Offer for the development and publication of a 3D model of the city of Turku in the ObliView service based on data made in 2022. Data quality will be consistent with the example currently published on ObliView and previously shared via FTP. The scope of the study is consistent with the TrueOrtho range.

Price offer	
Creating 3D mesh model in 3D tiles and FBX format, grid 175x175m; flattening the geometry / lowering the texture resolution for military areas (to full tiles), publication of data in ObliView	7 000 € net
Hosting additional data in the ObliView - annual fee	500 € net

Schedule:

- Data delivery: up to 1 month
- Delivery method: via FTP

Best Regards,
Sławomir Mleczko
